STEVIA

natural sugar substitute

1 tablet / 2-3 drops = a teaspoon of sugar

Stevia is the best natural sweetener. It normalizes carbohydrate metabolism, improves digestion, and does not increase the level of sugar in the blood. Tablets and a dense stevia extract can be added in hot and cold drinks, to replace them with sugar in porridges, jam and baking. 100% natural, do not contain sugar, dyes and preservatives. Made without chemical bleaching.

Try great taste and appreciate significant economic benefits!

Drinks can be prepared in the traditional way with ground coffee, milk or cream adding, and they are great for preparing in home and office drip coffee maker. These drinks are well known since Soviet times and today they are officially recommended as part of the diet in kindergartens, schools, army and other public and private institutions. Among drinks available on the market ground drinks based on cereals and chicory are distinguished by high content of essential minerals such as iron, phosphorus, magnesium, potassium and calcium. Thus drinks are useful for people who work in difficult conditions, for pregnant women and women nursing infants. Drinks do not contain caffeine and are recommended for use without restrictions and at any time of the day.

INSTANT CHICORY

Instant chicory is manufactured from natural ingredients – roasted chicory roots by its extraction, filtration and thickening. The product is a dark-brown pasty substance. Specific chicory properties are used in the traditional medicine for thousands years for treatment of cardiovascular diseases, digestive system, diabetes, immune system stimulation, potency increase, improvement of mineral absorption and for general health. Inulin prebiotic is a basic medical and preventive chicory component. It stimulates the development of healthy and reduces the number of pathogenic bacteria of the intestine, increases the activity of the liver, gall and gastric acid release, helps the digestion of fats and absorption of minerals.

The chicory is the most delicious to drink with natural or condensed milk as it provides coffee and caramel flavor. This combination greatly increases the absorption of calcium and other essential components of both products.
